Notes:

1. These plan will be available as one time activation for prepaid customers.
2. The average network speeds for mobile Broadband service are approximately 5 Mbps for downlink and 2.5 Mbps for uplink, provided on a best effort basis. These figures are indicative and may vary due to factors such as network capacity, fluctuations in radio wave propagation, and the shared bandwidth nature of the service. Consequently, actual user experience can differ. The stated speeds represent daily averages, derived from sample tests conducted across multiple time slots throughout the day.
