of Sri Lanka

The Telecommunications  
Regulatory Commission of the Sri  
Lanka with the Concurrence of  
the President.

On this 29<sup>th</sup> Day of October 2019

## SCHEDULE

The paragraph 1 of the Schedule 1 in the Licensed System shall be replaced by the following paragraph.

1. The Licenced System consists of Telecommunications Systems which established by the Licensee for the purpose of providing Services specified in Schedule 2 of the licence using a Cable Distribution Network.

In Condition 2 of Schedule.3, followings shall be inserted as Condition 2.6.

2.6 The operator shall interconnect all the nodes in the Licensed System so that the operation of entire Licensed System can be monitored and controlled from a single central control centre. Technical configuration and the traffic information of the total network should be monitored and controlled from this central control centre.
