Notes:

[1]. Average Down Link/Up Link speed available for the Lite Packages is 512 Kbps. Down Link and Up Link speed after the quota is exhausted will be 64 Kbps. For HIB Booster Extensions average speed available is Down Link - 4 Mbps, Up Link - 1 Mbps, Burst Bandwidth up to 40Mbps is possible subject to the availability of network resources and location of the user.

[2]. HIB Booster Extensions will only be available for customers using the HIB Booster packages, customers can use these boosters for any ad-hoc requirement for unthrottled speed or after the allocated quota is exhausted.

[3]. Number of email boxes for each package – 2

[4]. Voice service will be activated on request for no additional rental. By default, charging will be on per second basis. The customer has the choice to migrate to per minute charging upon request free of charge.

[5]. New Home Broadband Postpaid Customer can purchase the device as a trading item and activate a connection with above plans at a zero-connection fee

[6]. HIB Booster subscribers are permitted to access and use content shown in www.guru.lk without utilizing their allocated data volume.
